You can also use the **ANGELFIRE** section found in the **LINKS**.

This list is inconclusive as there are other Model A parts that have been adapted due the ingenuity of Shay & Camelot owners.

The referenced Part Numbers listed in the **FIRST COLUMN** are from the 2008 **Snyder's Antique Parts** catalog and **Mac's** 2008-2009 catalog in the **SECOND COLUMN** are used for references only. Many parts have optional part numbers not listed.

Many part numbers between **Snyder's** and **Mac's** similar due use of same manufacturers/vendors.

\* **Asterisk** denotes that detail parts of **MOTO METER** and **FLYING QUAIL** in lieu of complete locking gas caps preferred. Use of either a 1928/29 or a 1930/31 radiator cap the preferred method. See **FORUM** for details of different mounting methods and parts used.
